

Bell Labs

Ken Thompson

4/2/43 –

Multics and Unix

Thompson worked on Multics and upon leaving the project was instrumental in creating Unix with Dennis Ritchie.

Bon and B

Thompson created the Bon programming language while working on Multics and he created the B programming language, the precursor to C.

Regular Expressions, UTF-8

Thompson created an editor which included regular expressions. He also developed the UTF-8 character set.

Turing Award 1983

For things that we have to learn to do, we learn by doing them. Aristotle
